Aighean	<p>Occasional stalking from mid-Aug, but particularly from early Sept to 20 Oct. This unusually confined estate (in a popular area with four Munros) presents exceptional challenges for stalking, as it is very difficult for hill walkers to avoid causing disturbance. Walkers are being encouraged to plan ahead and walk elsewhere on days when stalking is taking place during the peak stalking season between 1st Sept and 20 Oct. In general staying on the ridges, avoiding the corries and going clockwise from Invervar round the four Munros will help prevent deer from being moved off the estate.
